Introduction:

MIBA LLC is a cutting-edge engineering services and consulting firm specializing in the design, development, and implementation of Electric Vehicle (EV) charging solutions and Lithium-Ion Battery design. With a commitment to sustainability and innovation, we provide comprehensive engineering expertise and consultancy services to support the rapidly growing in Battery and EV industry.

Our Vision:

To drive the electrification of transportation by delivering top-notch engineering solutions and consulting services, making Lithium-Ion Battery and EV charging accessible, efficient, and environmentally friendly for all.

Our Mission:

At MIBA LLC, we are dedicated to:

- 1. Engineering Excellence:** We provide state-of-the-art engineering solutions tailored to meet the unique needs of Battery Design, Packing and EV charging infrastructure, ensuring reliability, safety, and performance.
- 2. Sustainability:** We are committed to reducing the carbon footprint of transportation through the development of a safe Lithium-Ion battery and EV charging solutions that promote energy efficiency and renewable energy integration.
- 3. Client-Centric Approach:** We prioritize our clients' goals and objectives, offering personalized consulting services to guide them through the complexities of battery and/or EV charging projects.

Core Services:

1. Engineering Services:

Our experienced team of engineers specializes in:

- **EV Charger Design and Development:** We design innovative EV charging solutions, ranging from residential chargers to high-power DC fast chargers, customized to meet your specific requirements.
- Our engineering services in lithium-ion battery design encompass cutting-edge research and innovative solutions to optimize energy density, safety, and performance.
- **Infrastructure Planning:** We conduct comprehensive site assessments and infrastructure planning to ensure optimal charging station placement and connectivity.
- **Integration with Renewable Energy:** We facilitate the seamless integration of batteries or EV charging infrastructure with renewable energy sources, enabling sustainable and cost-effective operations.

2. Consulting Services:

Our expert consultants offer:

- **Feasibility Studies:** We assess the viability of Battery or EV charging projects, considering factors such as market demand, regulatory compliance, and financial feasibility.
- **Regulatory Compliance:** We navigate complex regulatory frameworks, ensuring that your Battery or EV charging projects meet all legal and environmental requirements.
- **Project Management:** We oversee every aspect of your Battery or EV charging project, from concept to completion, ensuring on-time and on-budget delivery.

3. Product: EV Chargers:

MIBA LLC offers a range of high-quality EV chargers, including:

- **Residential Chargers:** Ideal for home use, our residential chargers are designed for convenience and ease of use, ensuring a seamless charging experience for EV owners.
- **Commercial Chargers:** Our commercial-grade chargers are tailored for businesses, parking facilities, and public spaces, supporting efficient and reliable EV charging operations.
- **Fast Chargers:** We provide cutting-edge DC fast chargers capable of rapidly charging electric vehicles, making long journeys more accessible to EV users.

"Empowering electric mobility, one charge at a time."

- Proudly
MADE IN USA

- Single/Dual Chargers
- Safe, Smart and Sustainable Energy Storage
- Telecom and Solar Batteries

Why Choose MIBA

Expertise: Our team consists of seasoned engineers and consultants with extensive experience in the Lithium-Ion Battery and EV charging industry.

Innovation: We stay at the forefront of Battery design and EV technology, continuously researching and developing innovative solutions.

Sustainability: We are committed to a greener future, promoting environmentally friendly Battery and EV charging solutions.

Customer Satisfaction: Our client-focused approach ensures that your unique needs are met with precision and excellence.

Give us a Call/ or email us ..

MIBA LLC is your trusted partner in engineering services and consulting for all your Lithium-Ion Battery design or EV charging. Contact us today to explore how we can empower your organization to embrace the electric vehicle revolution.

Disclaimer: This company profile is subject to change as the company evolves and expands its offerings. Please visit our website for the most up-to-date information.
